AMRA Chairman's Report

We have had a couple of competitions and a Woomera practice since the last Newsletter. All went well, the Coonabarabran Ultra Long-Range Challenge 2016 finally took place a year later and there were some great scores on the 1500 yard targets.

The Nationals at Stawell went smoothly, thanks to plenty of hard work behind the scenes. Entry numbers were up on the last couple of years which is good to see.

Still just an idea at this stage, but it is worth mentioning that it appears that there is a 1200 yard range in the US in Wisconsin with 28 Silver Mountain targets. There are discussions in the UK about a possible trip to see if we can interest some Americans in our style of long-range shooting. I'll keep you updated if plans for an informal trip get off the ground.

So, a few months before Tasmania, with the State Championships, the 1500 Merton Vale and then two days of Woomera practice. This is a good time to think about arranging for components to be available for reloading, or shipping ammunition across the water. There are a number of DG (Dangerous Goods) shippers including Toll and Northline. In addition, some of the Pack-and-Send depots can cope and the NSW shooters have used them in the past. Further information on this is provided later in the Newsletter. Contact Phil Bain or myself if you need advice. Key information you will need is that the ammunition category is 1.4S, and the UN number is 0012. Packing group is II. The package must have the orange triangle with 1.4S. I have a document I can email so you can print them onto adhesive paper.

A thought put to me by Mike Samuels needs serious consideration. Not everyone is within reach of a 1200 yard range. As a way of introducing newcomers to MR and Long-range F class, why not shoot at say, 900 and 1,000 yards on a reduced-size target? Why not give it a try on your range and report back for the next Newsletter?

Paul Monaghan
AMRA Chairman

2017 Victorian MR & LRF Championships

By Lew Horwood

On Wednesday 8th November the Stawell rifle range had a practice day for the Australian Match Rifle Team that will be competing at Bisley in England in 2019. Then on Thursday the Victorian Championships were held.

Prior to the commencement of the Victorian Championships, competitors and friends gathered at 1000 yards to pay tribute to friend and fellow shooter, Graham Dyson, who had sadly passed away on 7th November. A Minute's silence was held in honour of Graham.

Thirty seven of the best long range shooters from all over Australia then competed in the Victorian Championships which, due to following Australian Championships, was a shortened 1 day event of 15 shots at each of 1000, 1100 and 1200 yards.

The winners were:

- Match Rifle Open - Paul Monaghan from Launceston Tas. 222.24.
- Match Rifle Reserve - Shaun Wingrove from Canberra. 220.16.
- F-Class Open - Lou Shallis from St Marys NSW. 255.10.
- F/TR - Mick Punturiero from Renmark SA. 247.12

The day was quite warm with a lot of mirage. The rifles were chambered 308 Winchester for Match Rifle and F/TR. For F-Open 6.5/284, 7mm SAUM and others were used.

The Stawell Rifle Club would like to thank the generous sponsors who provided powder and goodies including:

- **Tim Kennedy of TK Auto Electrex,**
- **Bests Wines,**
- **Montara Wines,**
- **Taltarni Wines,**
- **National Hotel**
- **Thales Group**

Their generosity is greatly appreciated.

The Stawell rifle club would also like to thank Nightforce Optics for donating a telescopic sight valued at \$2900 for the Australian Championships. It was won by the winner of the Match Rifle Australian Championship, Philip Bain.

Everybody had a great time. Gazebos were used to shade the shooters when conditions became too hot.

The Australian Match Rifle Team would like to thank Peltor – 3M for their generous donation of communication headsets for the Australian Team.

AMRA Membership Fees – 2017/18

AMRA Membership is now paid on an annual basis and fees for 2017/18 became due on 1 July 2017.

Membership Fees of **\$20** can be paid by direct deposit to Australian Match Rifle Account as below:

Account Name: Australian Match Rifle Association Inc
Bank: Bendigo Bank
BSB: 633 000
Account Number: 140420423
Reference: **FEES and then Your Initial & Surname**

Please email your payment receipt to info@matchrifle.org

Alternately payment can be made by cheque payable to Australian Match Rifle Association and sent to
PO Box 535, Wagga Wagga, NSW 2650

Graham John Dyson – A Friend and Mentor

23rd June 1950 – 7th November 2017.

By David Rich

Graham passed peacefully after a long battle with cancer. When I saw him for the last time a couple of days before, he said I'm not afraid to die. I'm ready to go. With these words we said our farewells, shook hands & our eyes spoke all the words that we could not.

We will all remember Graham in our own ways.

A family man. A brother who made home brew under the shearing shed whilst Mum & Dad were at church. A loving husband of first wife Lyn, who died suddenly ending their 18-year marriage. A devoted father to John, Teresa & Joanna. Going to the footy & BBQ's. Getting involved in school council, football & social clubs. A grandfather who listened intently to the many stories, offering words of wisdom or just happy to enjoy their company. Going fishing was one of the many things he loved to do with Arna during their 25-year marriage

A committee man, Graham believed in getting involved in things. This meant that he was always attending meetings, he loved due process & proper procedure. Graham's service ranged from Football club, Social club, Hall committees & the CFA. He served three terms as VRA councillor, DRA President & Rifle club captain. This devotion to serve may have come from doing 2 years National Service when he was 19.

A working man. On the family farm & surrounding Byaduk area. He had a particular love of making hay on his MF 355 tractor & NH baler. An Engineer in their steel business, building sheds & fixing the unfixable piece of farm equipment. A motelier taking bookings & making beds. A real estate agent learning all about growing grass to make milk, he loved nothing more than chewing the cud with diary clients believing that he had to know their business better than they did. This way he could promote the positives & suggest improvements to gain the best result for them.

A Shooter. A good Target rifle driver and match rifle shooter, with some success as an individual. His greatest moment, Winning the Brigadier Trophy at Bisley, England, in 2010. This is no small feat, with over 1000 competitors.

But Graham rose above the crowd when it came to coaching. His ability to read a shooter's emotion, the wind flags & the mystery of mirage was equalled by but a few in this world. As a shooter I would revel in his excitement as we would score centre after centre. His name appears many times on many shooting trophies -like the Coorangamite shield and the Merrett Trophy to name but two. His talent as a coach saw him represent Victoria in Target Rifle & Match Rifle on numerous occasions. He travelled to England, West Indies & New Zealand as a coach with National teams -winning accolades everywhere.

A friend. Graham had the ability to think and problem solve. He would quietly listen over a beer or a cup of tea. At the odd time with a raised eyebrow if something seemed a bit different. This once again was his powers of observation at work, now instead of mirage it was people & life. He would chew over an issue, shooting or personal, sometimes for weeks before offering guidance or solution. This he gave freely & without favour to all who sort his counsel.

I will remember Graham as a mentor, but most of all he was my friend, for whom I mourn.

David Rich

In 2012, Graham and Arna were members of the 2012 Australian Match Rifle Team that toured the UK and competed for the Woomera Trophy against Great Britain at Bisley. Graham coached the highest scoring Australian shooter for the Woomera competition and was given a "Bisley Wind Flag" by the Great Britain team. Below are some memories of Graham from that trip.

Blair Atholl, Scotland

Bisley

2017 Australian Championships

Early November saw long range shooters from across Australia travelling to Stawell in Victoria for the 2017 Australian Match Rifle & Long Range F Class Championships.

The individual competition covered 3 ½ days with 15 shot matches at 1000, 1100 and 1200 yards on each of the first three days and culminated in a 20 shot match at 1200 on the final morning. With the Victorian Championships held the day before as a lead up, all shooters were well on target from the start.

Range honours on Day 1 in Match Rifle Open were equally shared between Mike Samuels (QLD) with a cracking 75.11 at 1000 yards, Shane Courtney (VIC) with 74.8 at 1100 and Paul Monaghan (TAS) with 74.7 at 1200 yards. Paul Monaghan took the Day 1 Aggregate, 3 points ahead of Philip Bain (NSW). Paul took both the 1200 and 1000 yards on Day 2 to also take the Day 2 aggregate though he lost out at 1100 to Chris Halloran (NSW) who had one of the best MR shoots of the day with a 75.5 – the only MR shooter to make 75 at this range.

Alas tragedy befell Paul on Day 3 with a shot on the wrong target at 1000 yards and probably the worst of conditions late in the afternoon at 1200. Whilst he shot a great 75.11 at 1100 yards, the honours for the day went to Shaun Wingrove (ACT) at 1000 yds with 75.7 and Peter Maher who shot a perfect 75.5 at 1200 yards to take the Day 3 aggregate.

Philip Bain (NSW) shot consistently for the first three days and emerged at the end of Day 3 with a narrow 3 point lead over Paul Monaghan in Match Rifle Open. So, it all came down to the final 20 shot 1200 yard match on the final morning.

The day was forecast to be a hot one and competition wise it certainly proved that with Shane Courtney putting a 99.7 (out of 100) on the scoreboard early in the piece. Not to be outdone, Philip Bain followed up with a 98.10 giving him an unassailable lead in the MR Open Championship. Paul Monaghan however had the last say putting a great 99.12 on the board to take the last range.

In Match Rifle Reserve, Mark Fairbairn (QLD), shooting in his first MR championships, proved his calibre by taking both the Day 1 and Day 3 aggregates and 4 of the first 9 ranges. Barry Southern (VIC) however gave him stiff competition taking the Day 2 aggregate and trailing by only 1 point in the Grand aggregate at the end of Day 3. So again the 20 shot 1200 was to be the deciding range. Mark shot early but placed a shot on the wrong target to finish with a 90.7. A mistake free shoot from Barry with a 93.5 on the final range gave him the new *Aurora Trophy* as Match Rifle Reserve champion.

Whilst numbers were lower than expected for the Long Range F Open Championship, the competition was none-the-less fierce. Lou Shallis (NSW) took honours at 1000 and 1100 yards on Day 1 with John Shobbrook (SA) taking the 1200 range. Lou took the Day 1 aggregate 2 points ahead of Tim Manning (SA). Lou followed up with wins at 1200 and 1100 the next morning with Brent Webley (SA) taking 1200.

At the end of Day 2, Tim Manning and Lou Shallis were locked together on 516 points with Lou leading by only 3 super Xs. Day 3 saw new arrivals, Bill Siegloff (VIC) and Jerome Zirsch (SA), take the

honours at 1000 and 1100 respectively with Les Rozsnyai (NSW) taking 1200 and the daily aggregate and Nick Simms (VIC) taking the final 1200 yards range on Day 4.

Consistent shooting throughout, saw the *Commonwealth Trophy* for National F Open Champion go to Lou Shallis on 878.31 from Tim Manning on 876.30 and Les Rozsnyai a further point back on 875.27

Mick Punturiero (SA), shooting in his first national long range championships, dominated Day 1 in FTR finishing 22 points ahead of Steve Smithson (SA) and Mike Halloran (NSW). This set the tone for Day 2 as well with Mick increasing his lead by a further 16 points from Steve and Mike who were only separated by 3 'super Xs' for 2nd place at the end of Day 2. Day 3 in FTR saw range honours shared between Mick (1000 yards), Mike (1100 yds) and Steve (1200 yds) and Mike Halloran taking the Day 3 aggregate. Mick Punturiero took the final 20 shot 1200 yds with 108 out of 120 to give him the new *Southern Cross Trophy* as National Long Range FTR Champion with a score of 855.28. Mike Halloran took the 2nd badge with 817.11 by 1 point from Steve Smithson on 816.15.

The individual program is concluded with two 'friendly' events – the Freebairn Teams for Match Rifle and the Siegloff Simms Pairs for F Open.

The Freebairn Teams takes the grand aggregate placings at the end of Day 3 and matches up each of the top placed competitors with lower placed shooters into teams of four for a 15 shot coached match at 1200 yards. The Coach has to come from within the 4 person team and all members shoot. This year's event saw five teams vie for the trophy and silver trays with Team Maher (Peter Maher, Viv Hunt, Willy Schaffner and Barry Southern) and Team Wingrove (Shaun Wingrove, Mark Fairbairn, Peter Rix and Graham Mincham) tipped as the 'pre-race' favourites. In the end though it was

Team Bain (Philip Bain, Tom Smith, Shane Courtney and David Freebairn) on 283.14 who stormed away with the trophy beating Team Monaghan (Paul Monaghan, Mike Samuels, Gil Walker and Mark Walters) by 10 points with Team Wingrove third.

The Siegloff Simms Pairs match was introduced in 2014 and is 25 shots per person with No sighters. It had been won by Bill Siegloff and Nick Simms in both 2014 and 2016 which gave the four other pairs that entered for this year's event something to aim for.

NSW team mates, Les Rozsnyai and Lou Shallis, paired up again this year to make a formidable winning combination shooting 262.6, three points ahead of Bill Siegloff and Nick Simms on 259.5 with Mark Fairbairn and Richard Nordewier a further 4 points back in third place.

Thanks go to the Victorian Rifle Association and the Stawell Rifle Club for hosting the 2017 National titles and particular thanks to Lew Horwood and his wife Kay for all the work they put into organising the event.

Of particular note was the high standard of marking and thanks go to Ron, Ross, Chi, Laurie, Tony and Max for their great work.

Sincere thanks also go to major sponsor, Lightforce Australia Pty Ltd, who donated a Night Force NXS 3.5 -15 x 50 telescopic sight as the Match Rifle Open Grand Aggregate prize.

2017 State Teams' Championships – Match Rifle & Long Range F Open

The grand finale of the Australian Match Rifle & Long Range F Class program is the State Teams events for both Match Rifle and F Open.

For 2017, the weather proved HOT with the first real burst of summer (37°) deciding to hit Stawell on the first day of the Teams' events. Thankfully some gazebos were sourced to provide shade on

the firing point and some breaks provided between events for the markers to rehydrate which enabled the program to go ahead as planned.

Match Rifle State Teams

Match Rifle State Teams compete for three trophies. The first is the Maloney Match which is a NO SIGHTERS and 16 shots to count at 1200 yards for each of the team's four shooters. Victoria (295.16), only dropping 5 points for the match, took the Maloney Trophy by 2 points from NSW/ACT (293.15) with South Australia (284.16) third followed by Tasmania (281.12) and Queensland (279.15).

The major MR State Teams event is the Rowland's Trophy. The donor of this trophy, Reg Rowland's, was one of the founding members of match rifle shooting in Australia. Before the start of this event MR shooters paid tribute to Reg's memory and his passing earlier this year.

Comprising 15 shots at 1000, 1100 and 1200 yards, the scores were close after the 1000 yard range with Victoria holding a narrow 1 point lead over NSW/ACT with South Australia a further 2 points behind followed by Queensland and Tasmania.

1100 yards proved the decisive range in this year's event with Victoria only dropping 2 points to take an overall lead of 8 points over NSW/ACT with the other States in the same order.

After a relatively mild morning the sun emerged with some vengeance and it was certainly 'cosy' under the gazebos. Wind conditions also picked up for the final range and there were some long periods of silence as coaches tried to figure out what was going on. At one stage Victorian Coach, David Rich, challenged the other teams to break the impasse and 'put one down there'. With much hilarity but no takers, it was up to David and Victorian team to make a call whilst everyone watched on – 30 pairs of eyes watched the target come up - **v bull** - and shooting was back on. (Though Peter Rix's con that it was shot with 11 minutes of wind on was greeted with some amusement by other teams.)

In difficult conditions, both Victoria and NSW/ACT shot well only dropping 21 and 22 points respectively for their 4 shooters at 1200 yards.

Clear victory in the Rowland's trophy went to Victoria on 875.79 from NSW/ACT on 266.68 with South Australia third on 849.38.

The President's Trophy for the highest scoring shooter and coach in the Rowland's Match went to Shane Courtney and David Rich (VIC) who dedicated their win to their friend and mentor Graham Dyson who sadly passed away on the eve of the National Championships.

The third trophy for MR State Teams is the Mincham Trophy which is the aggregate scores of both the Maloney and Rowlands matches. With victories in both the Maloney and Rowlands, Victoria on 1170.95 took the Mincham trophy for the first time from NSW/ACT on 1159.83 with South Australia third on 1133.64.

Long Range F Open State Teams

With teams of five people and three shooters at each range, the Long Range F Open State Teams also compete in three events.

The Victoria match is a No Sighter and 16 shots to count at 1200 yards. Close competition between Victoria, NSW and South Australia over the last few years meant each State was determined to get off to a good start but it was NSW (263.9) that proved the team to beat - finishing 5 points ahead of Victoria (258.4) with South Australia third on 251.8.

The NSW Match was held the following day with 15 shots at three ranges for each of the 3 shooters. Victoria and NSW vied for the lead after each of the ranges with Victoria leading by 2 points after 1000 yards and NSW leading overall by 3 points after 1100.

An unfortunate shot on the wrong target by NSW (no names mentioned, Cliff) saw Victoria take the final range by 3 points – meaning both NSW and Victoria finished with a 756 aggregate for the day with Victoria taking the NSW Match by 31 Super Xs to 28 with South Australia only 3 points further back on 753.31.

The President's Trophy for the highest scoring shooter and coach in the NSW Match was won by Les Rozsnyai and Greg Warrian (NSW).

Given their 5 point win in the Victoria Match, the South Australian aggregate trophy was taken for the first time by NSW with a score of 1019.37 from Victoria on 1014.35 and South Australia on 1004.39.

UP FOR THE CHALLENGE – Coonabarabran Ultra Long Range Challenge

October 2017 saw (finally) a new addition to the long range shooting calendar with the inaugural Ultra Long Range Challenge event held at Coonabarabran NSW from 7-9th October.

The 2 ½ day event run by the NSW Match Rifle Association, comprised shooting at 1000, 1100, 1200 and 1500 yards including a 20 shot 1500 yard match on the final morning – the first time a 20 shot 1500 yard match has been held in Australia.

The event had been originally planned for October 2016 but had to be postponed to 2017 because of the unprecedented rain and flooding that occurred in the area last year. The weather this year proved a little friendlier though the 1500 yard range on Sunday did have to be cancelled due to rain.

A total of 29 shooters took part in the event with people travelling from Tasmania, Queensland, South Australia, Victoria and from around NSW to participate. With work commitments, some were not able to shoot the full program and the rain on Sunday afternoon sent a couple home early but the 20 that stayed and shot the full program were rewarded with almost perfect conditions for 1500 yard shooting on the Monday morning.

The event was preceded by a training day for the Australian Match Rifle Team Squad who are preparing for their trip to Bisley in 2019. A total of 15 Match Rifle shooters stayed on for the Ultra Long Range Challenge and were joined by 9 F Open and 5 FTR competitors.

The Grand Aggregate comprised 15 shot matches at 1000, 1100 and 1500 yards on the first day, 15 shots at 1000 and 1200 on the second day (the 1500 yd range being washed out) and 20 shots at 1500 yards on the final morning. All events were shot on the standard match rifle target (2400 x1800mm) with 305mm centre bull and 610mm bulls eye and 127mm Super V for F

Go Further With Long Range Shooting
Match Rifle – FTR – Long Range F Class

www.matchrifle.org

Class. Sighting Boards with markings the same as the target aiming mark and rings were placed on the top of the stop butt aligned with each target to assist those whose scope rails did not allow for full adjustment back to 1500 yards. This gave these shooters 8-10 minutes of additional elevation depending on the cartridge they were using.

Match Rifle Open was dominated by Philip Bain who won 3 ranges, the 2 daily aggregates, 1500 yard aggregate and Grand Aggregate, finishing with a 93.3/100 at 1500 yards and 6 points clear of Paul Monaghan in the Grand Aggregate.

Match Rifle Reserve saw Dave Xuereb take all the honours on Day 1 with Bill Freebairn similarly controlling Day 2. Dave Xuereb's great 83.2/100 at 1500 yards on the final morning proved the deciding factor giving him both the 1500 yard aggregate and the Grand Aggregate in Match Rifle Reserve.

In F Open, Lou Shallis had a steady performance over the first 2 days and a fantastic 106/120 on the final 1500 yard range. He ended with a total of 3 range wins, 1 daily aggregate, the 1500 yd aggregate and the Grand Aggregate win, 14 points clear of Alan Fraser in 2nd place.

Geoff Willis proved hard to beat in FTR winning 4 ranges, the two daily aggregates, the 1500 yard aggregate and the Grand Aggregate.

A number of entrants had not shot past 1000 yards before but proved up to the challenge. Dave Xuereb (Explorers) shooting Match Rifle for the first time took out the Match Rifle Reserve Grand Aggregate and placed 5th overall in Match Rifle Open. Clubmate John Dixon (Explorers), also a new comer to the long distances, placed third overall in the grand aggregate for F Open and Peter Duncan (West Wallsend) took out the Day 1 Aggregate in F Open before he had to head home.

The NSW Match Rifle Association would like to thank the Coonabarabran Rifle Club for their help in holding this event, they have a great range and facilities and many took advantage of the onsite camping/caravan arrangements. Thanks also to John Oddy (Range Officer) Chris Roberts (Butts Officer) and markers – Ron & Ross Aldridge, Jarod and Angus.

Going To Tassie?

A number of shooters have expressed concern about competing in Tasmania because of changes to provisions for carrying ammunition on the Ferry. Whilst the changes are not what we would like, there are alternate easy and inexpensive ways to get your ammunition across. With a little bit of preplanning it is quite simple - a couple of options are outlined below.

Pack & Send

Pack & Send have a range of offices throughout Australia and are able to arrange the transport and paperwork for you with a dangerous goods carrier. You don't even need to have a branch of Pack & Send locally! They have arrangements with carriers across Australia and if you ring

Mark Gain on 02 6971 7299

he can arrange with you for collection of your ammo (you will need to properly package) and the paperwork. They use TNT for the transfer across to Tasmania and you can address it for you to collect at the TNT depot at Launceston Airport on your arrival. It is on your way to the Campbell Town Range whether you arrive by ferry or plane.

Toll

A number of people have also used Toll to transport ammunition to and from Tasmania. Contact your local Toll Express office for details or use the Enquiries Form on their website <http://www.tollgroup.com/onetoll>

Northline

A number of people have also used Northline to transport ammunition. Contact Paul Monaghan for further information or look at their website at www.northline.com.au

*Please Note: Whoever you use, you will need to ensure your ammunition is appropriately boxed and with the correct **1.4S Explosives** orange labels on the box.
If you email info@matchrifle.org a PDF of these labels can be emailed which you can then print off on orange paper.*
